

The atmospheric cyberpunk landscape of the iconic Blade Runner films, and 1980's Lamborghini styling inspired this build, we combined angular shapes with flowing forms. We wanted to create something that felt at home in the Blade Runner universe but had an element of unique design. It epitomizes the Cyberpunk genre, with 80's angular lines, and high tech interior. The Spinner was built from scratch with a steel frame and clad in aluminium. This is a fully working electric vehicle. Not road legal.

## Key Features

2 x 450w Electric motors, direct drive to rear wheels.

Interactive interior with touch screens. Strobe lighting effects and a frenzy of LED lighting.
