

Need something original, awesome or inspiring for your outdoor space? Have a look at our menagerie! If you can't see what you want, get in touch as we also do commissions.

We believe in recycling; and that's how Mark started making garden sculptures, with the by-product of the large-scale prop builds. "From the ashes" of the large prop building projects came many a wondrous creature! These sculptures are quirky, and fun. Usually animals, they are all made from repurposed, recycled, and reused materials. Each piece is unique.

Each piece has a different origin story and providence - so be sure to ask what it is made from when you purchase one...
